ENGINEERING AND TECHNOLOGY ENROLLMENTS FALL 1981

PART I

Engineering Enrollments By School And By Curriculum
For All Students Including A Breakdown By Women,
Minorities And Foreign Nationals

A Report of An Annual Survey
conducted by the
ENGINEERING MANPOWER COMMISSION

A Commission of the Engineering Affairs Council
of the
American Association of Engineering Societies, Inc.
345 East 47th Street
New York, New York 10017

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The American Association of Engineering Societies (AAES) is a national federation of 43 organizations representing nearly one million engineers.

As a central coordinating organization, AAES focuses the resources of the engineering societies on technological issues of national and international importance.

1982 OFFICERS

Irvan F. Mendenhall *Chairman*	Robert M. Saunders *Chairman-Elect*
Nicholas J. Radell *Secretary/Treasurer*	H. Arthur Nedom *Past-Chairman*
Eugene Zwoyer *President*	

ENGINEERING AFFAIRS COUNCIL

The Engineering Affairs Council is responsible for matters concerned with the practice of engineering in the public interest. The Council encourages voluntary exchanges of information, coordination of goals and joint action.

1982 OFFICERS

James F. Shivler, Jr. *Chairman*	William E. Carew *Vice-Chairman*
Donald G. Weinert *Secretary/Treasurer*	

THE ENGINEERING MANPOWER COMMISSION
# of the
AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The Engineering Manpower Commission was organized in 1950 to serve as a focus for national technological manpower issues.

The Commission's program is carried out through the collection, analysis, and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

> *"To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Engineering Affairs Council of AAES."*

1982
EMC OFFICERS AND STAFF

Paul Doigan
Chairman

Dorothy Morris
Vice-Chairman

Paul B. Wood
Vice-Chairman

Luke H. Noggle
Chairman, Surveys of Committee

Carolyn J. Heydt
Manpower Statistician

ACKNOWLEDGEMENTS

The Engineering Manpower Commission is grateful for the invaluable assistance of Mark V. Swankoski and associates of E.I. duPont de Nemours and Company for processing the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. This survey was conducted by the EMC staff under the direction of Dr. Francis W. Stacey, Chairman of the Enrollment Survey, and with the consultation of Donald E. Irwin.

INTRODUCTION

Since 1967, the Engineering Manpower Commission has conducted annual studies of engineering and technology enrollments in order to provide timely and accurate education data. This publication is the fourteenth in that series and reflects enrollments as of the fall of 1981.

This report is divided into two parts and presents data for all students enrolled in engineering and technology (which includes engineering technology and industrial technology) programs by curriculum and school. Summaries of student enrollment in ABET-accredited programs are shown. Undergraduate students are reported by class and graduate students by degree level. Data is presented for all students combined, as well as for women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students. It should be noted that Part I deals exclusively with engineering enrollments and Part II with technology enrollments.

Part I contains detailed engineering enrollment data by school for all students, women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students. It also contains detailed data by curriculum for all students combined, women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students, as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Part II contains detailed technology enrollment data by school for all students, women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students. It also contains detailed data by curriculum for all students combined, women, Black, Hispanic, American Indian, and Asian/Pacific students, as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Although every attempt has been made to eliminate errors in reporting the statistics, some discrepancies may appear. In several cases, inconsistencies in the data submitted have been corrected, or related curricula grouped under a common title so that this report would be manageable in size. Any questions regarding the course content of a specific program should be directed to the reporting institution. Users of this report are advised to read the explanatory material before using the data tables provided herein.

THE 1981 ENGINEERING ENROLLMENT SURVEY

In September of 1981, questionnaires were sent to 286 U.S. schools offering engineering programs to at least the bachelor's degree level.

Estimated Data

Information was not received from the following engineering schools at the time of publication. In order to preserve continuity of past summary data, information from previous years has been substituted for these institutions:

University of Hartford
Humboldt State University
North Carolina A&T
Prairie View A&M
Pratt Institute
University of Tennessee at Chattanooga
University of Tennessee at Knoxville
U.S. Coast Guard Academy
West Coast University

In a few cases, schools estimated their minority data or data for particular programs. In such cases, estimates are indicated by an asterisk (*) in the appropriate column.

In some instances where schools submitted reports which were only partially complete, judgement was used to distribute the data as necessary, with the consultation of the schools.

Data Tables

The following data tables are presented for students enrolled in engineering programs:

(1) Enrollments for all curricula arranged by class or degree level; detailed data for all students combined, women, Black, Hispanic, American Indian, Asian/Pacific, and foreign national students.

(2) Enrollments for each curriculum by school arranged by class or degree level for undergraduate and graduate students; detailed data and a summary for all students combined; detailed data and summaries for women, Black, Hispanic, American Indian, Asian/Pacific and foreign national students, together with additional summary data for these special populations combined.

It should be noted that the following features are common to all tables:

(a) The figures for the individual undergraduate years are for FULL-TIME students only. All part-time enrollments are combined regardless of the student's academic standing.

(b) Full-time advanced degree enrollments are reported under the headings of master's, engineer, or doctorate degrees, and as a total for all full-time graduate students. All part-time graduate student enrollments are combined in one column.

Accreditation and Control Identification (AC). Schools have been assigned a two-digit code to indicate accreditation and public or private control.

The first digit (1-6) indicates accreditation as follows:

1 = At least one engineering curriculum accredited by ABET (1980 list). Used only in the engineering tables.
2 = At least one technology curriculum accredited by ABET (1980 list). Used only in the technology tables.
4 = Accredited by a regional accrediting commission (1980-81 list).
5 = Accredited by National Association of Trade and Technical Schools (NATTS, 1980-81 list).
6 = None of the above.

The second digit (1-5) indicates control as follows:

1 = Public - state or local government control
2 = Public - federal government control
3 = Private - non-profit, non-sectarian
4 = Private - religious
5 = Private - proprietary

For the purposes of recording accreditation status, information was obtained from the Accreditation Board for Engineering & Technology (ABET) 1980 report. ABET-accreditation status for bachelor's and master's degree programs is shown in the column designated "ACCR."

HISTORICAL SUMMARY
ENGINEERING ENROLLMENTS IN FALL, 1981
As Compared With Earlier Years

Engineering Students	Fall 1971	Fall 1972	Fall 1973	Fall 1974	Fall 1975	Fall 1976	Fall 1977	Fall 1978	Fall 1979	Fall 1980	Fall 1981
Freshman Year, Full-Time	58,566	52,100	51,925	63,444	75,343	82,250	88,780	95,805	103,724	110,149	115,280
Sophomore Year, Full-Time	47,948	42,272	40,519	45,935	55,891	63,003	70,326	72,150	78,594	84,982	87,519
Junior Year, Full-Time	48,543	45,874	41,673	43,007	49,338	56,835	64,721	69,816	74,928	80,024	86,633
Senior Year, Full-Time	51,377	49,895	48,366	44,538	47,070	51,692	60,109	68,260	77,823	84,442	92,414
Fifth Year, Full-Time	4,391	4,586	4,222	4,175	3,737	4,055	5,312	5,206	5,419	5,520	5,731
